

MEMORANDUM

Missouri Department of Transportation
Maintenance Operations
2211 St. Mary's Blvd.

TO: All District Engineers

CC: Jim Carney-tr

FROM: Eileen Rackers *ER*
State Traffic Engineer

DATE: March 9, 2006

SUBJECT: Temporary Traffic Control
Traffic Control for Field Operations Revision
Typical Application
Lane Closure Using Two-Way Left Turn Lane on Undivided Highways

As a result of district input, this office developed a new Typical Application (TA) prescribing temporary traffic control measures to be undertaken when closing a driving lane and maintaining the displaced traffic flow over a two-way left turn lane. The new TA (see attachment) may be used upon receipt of this correspondence and will be incorporated into the next revision of the manual.

Please ensure a copy of the attachment is provided to those who may make use of this information. Should you require any clarification, contact Scott Stotlemeyer, technical support engineer- maintenance, at 573-526-1759 or stotls. Thank you.
